Choosing Members

**When selecting members for the EWF, here are some helpful things to keep in mind:**

### **Job Role:**

EWF programs are ideal for professionals in cybersecurity, risk, privacy, GRC, data, IT audit, and related fields. We offer two content tracks—technical and leadership—so there's something for everyone.

### **Level:**

- The EWF supports women at all stages of their careers, from entry-level to executive. Each level has access to relevant content and networking opportunities.

### **Location:**

- The EWF is a global community. While most events run on Eastern Time, they are recorded and available to watch anytime in our Resource Library.

### **Inclusivity:**

- Membership is for individuals who identify as female, but the EWF also offers inclusive events open to everyone in your organization—including men.

### **How to Choose Members**

There's no one right way! Companies select members in different ways, such as:

- Self-nomination or application
- Manager nomination
- Invitations to top talent as part of a career development program

You can update your member roster at any time. We provide Engagement Reports twice a year to help you make informed decisions.
